NOTES:

- 1) Battery enclosure is diecast aluminum with black powder paint.
- 2) Weight given is for enclosure with batteries and 1 meter cable.
- 3) Battery enclosure to be mounted on customer tooling in convenient location.
- 4) Battery enclosure cover includes a seal for water resistance and a label for recording battery installation date. (Customer to supply batteries).
- 5) Battery life is dependent on the amount of time the customer's tooling is coupled to the ATI master module and in production. Long periods without use shorten battery life. When tooling is idle, replace batteries at least every three months. When tooling is in frequent use, replace batteries at least once annually.
