AN2 Master Module
(9121-AN2-M)

AN2 Tool Module
(9121-AN2-T)

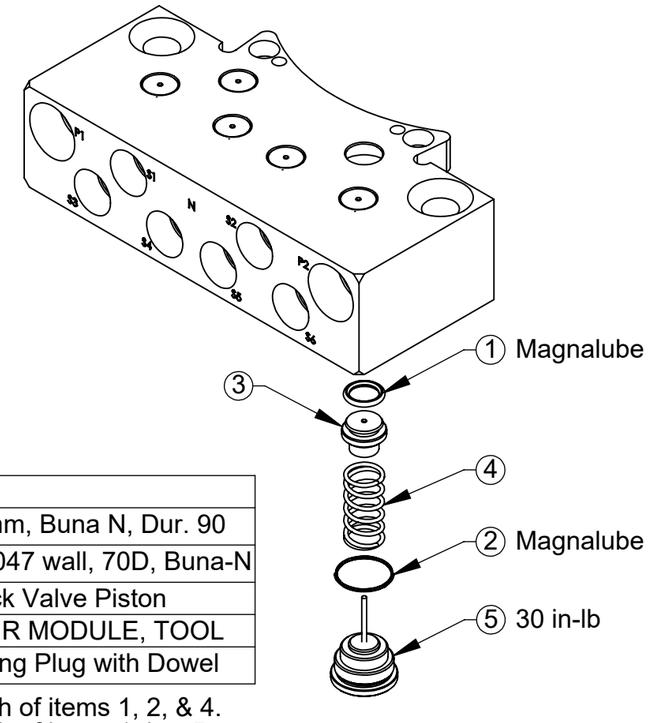

Notes:

Materials of Construction
1. Housings - Anodized Aluminum
2. Valve Components - Stainless Steel, Nitrile and PVC
3. Replacement stem contains pre-applied thread locker. Use Loctite 7649 primer and Loctite 222 if reassembling with original stem.

Operation:
4. For best results keep air module mating surfaces free and clear of any debris.
5. Checked ports can produce significant forces when under high supply pressures. These forces have to be overcome to achieve tool changer coupling.
6. Checked ports do not support vacuum conditions.
7. The AN2 modules have (6) 3/8" NPT checked ports and (2) 1/2" NPT Pass-thru ports for air or vacuum service.
